Absolute Beachfront - Absolute Designer Chic

Arnalaya Beach House is a masterpiece of contemporary beachside design set in tropical gardens with a private tennis court, gym and spa that entwine to create the ultimate destination for surfside living.

Architectural genius Sonny Chan collaborated with interior design guru Albano Daminato to fashion a five-bedroom residence with a stand-alone gym and spa plus a game changing entertainment bale overlooking the Indian Ocean. This is a serious party zone with it's own kitchen, coal barbecue and seating for more than a dozen people. With the ocean just metres away and a shimmering 20-metre salt-water pool by its side, this open pavilion is the last word in outdoor dining and your private chef is ever on hand to produce the ultimate gourmet feasts. Despite strong temptation to stay put, those exploring beyond this heavenly retreat will soon discover themselves to be only a gentle walk away from an exciting collection of funky cafes and eateries in Bali's most up and coming district of Canggu.

In the main house bedrooms have gorgeous sculptural terrazzo walls and clean lines that contrast with stylish canopied beds and sitting areas. Timber walls are closets keeping the minimal tone sharp. Two bedrooms have mesmerising ocean views from their freestanding baths set before huge bay windows.

Families and sports fiends will adore the private tennis court with its ball launcher and huge racket selection, pool, gym, spa and perfectly placed yoga platforms to catch the sunrise and watch over the daily Hindu rituals at a nearby fisherman's temple. The entertainment room, meanwhile, is fully loaded and ready to roar with Apple TV, board games, music, arts gear and books galore.

With 35-metres of ocean frontage, a team of 16 dedicated staff and an abundance of space, Arnalaya Beach House is a retreat that sings a siren song of a fantasy family holiday, a dream wedding and party venue, or a perfect surfside get away for a group of savvy travellers.
